MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: 117L Briefing at Ramo-Woolridge Plant,
Denver, Colorado

1. Following the brief discussion of subject briefing with you and Dr. Scoville, I sought to establish with AFCIN (Lt. Col. Kemp - Coordinator) the date of 22 April for our briefing at Denver. [] informs me that the R-W Staff and facility would be committed during this period and proposed 29 April as the date subject to Gen. Walsh's concurrence.

2. I find now that the Director will be using the plane on 27 April, and on 28 April the plane will be taking a group off to Alaska. Unless you would like to force some change in this schedule or use the commercial airlines, I would suggest that we cancel our plans to receive this briefing in April and try for another date in May. Perhaps at this point you might be inclined to drop it completely. I would appreciate a guideline from you when convenient.
